Table of contents

I am a machine learning engineer with over 20 years of experience. I have worked with innovative companies such as Airbnb and GitHub, which included early LLM research used by OpenAI, for code understanding. I have also led and contributed to numerous popular open-source machine-learning tools. I am currently an independent consultant helping companies build AI products.

Work With Me

I am currently **teaching a course on AI Evals For Engineers & PMs** from July 21 - August 22, 2025.

If you need more hands-on help, I'm open to new consulting work and other forms of advisory. If you need help with your project, you can find more information here.

Blog

I often share my experience building AI products. Below is a selected assortment of my longer-form writing.
